

**Model Number: NSN-15-XXXX**

# Ensign Fan-in & Fan-out (FIFO) L-band Matrix Router

32 x 32 routing for multiple uplinks - **with 0-5 dB variable gain**

ETL's Ensign matrix operates over the **850 -2450MHz** frequency range and is both **Fan-In and Fan-Out (FIFO)**, which means that multiple inputs can be combined and the combined signal can then be routed (distributed) to multiple outputs.

This is typically to allow modems access to multiple uplink and downlink chains, but it can also be used as a Transmit and Receive matrix for smaller teleports or ground stations.

**Connectors:** A range of RF connectors and impedances are available, including BNC, F-type and SMA in 50  $\Omega$  or 75  $\Omega$ . Model numbers will vary.

**Other options in the Ensign series:** The Ensign switch matrix / router is also available with other options including 5dB fixed gain (Model NSN-10) and fixed unity gain (Model NSN-11).

### Benefits

- 32 x 32 fan-in and fan-out routing in a compact 6U high chassis.
- 0-5dB variable gain to compensate for system losses, e.g. from cables.
- Input and output cards can be expanded in single steps.
- Further expansion of RF Matrix to 512 x 512.
- Continuous monitoring and reporting of all active components (e.g. amplifiers).
- Reliability in service with hot-swappable active components.
- All settings are retained after a communications / power failure.

### Typical Applications

- Downlink and uplink applications
- VSAT traffic distribution
- RF content acquisition for remote TVRO & IPTV headends
- RF distribution in cruise liners or luxury yachts
- Remote controlled unmanned sitcom sites

Power		
AC Power	85-264Vac 50-60Hz	Fused 2A
PSU	Dual redundant	Diode OR
Hot-swap PSU	Yes	

System Control	
Local Control	Touchscreen & VGA Display
Remote Control	Via RS232/485 serial port or RJ45 Ethernet. 10/100Base T. TCP/IP & web browser interface
Alarms	Ethernet, serial and a dry contact alarm port on rear panel for PSU failure

Environmental	
Operating temperature	0 to 45°C
Location	Indoor use only
Storage temperature	-20°C to +75°C
Humidity	20 to 90% non-condensing

Physical	
Dimensions	6U high x 450mm x 19" wide
Weight	29 kgs
Colour	White 00-E-55 semi-gloss
